

HELLO FROM CHARLENE WILSON.

Hello!

I am a recent graduate from Cardonald College Glasgow with an Advanced Diploma in Graphic Design and a passion for illustration, typography and desktop publishing. I am a self motivated, hard working individual and I'm very enthusiastic about my work. I enjoy challenges, learning new skills and work best in a busy, lively environment. My current role at T-Mobile UK ensures I have excellent communication skills and the ability to cope under pressure and deal with difficult situations using my own initiative.

As an aspiring graphic designer with a varied portfolio and good attention to detail I am looking to gain full time employment either as an in-house graphic designer or working within an agency. If you are interested in finding out more about me or offering me work, please do not hesitate to get in touch.

Regards,

Charlene Wilson
